Here we go again with the sewerage problem in Tana Tea Circle, it started again on Saturday Evening February 8th around 8 to 9 pm.

As usual the telephone call about the sewerage problem, not to go swimming?, there was no spill into the lake. Trucks came to send huge amounts of water through the pipes to open them? Sunday morning February 9th the sewerage people returned, with the Electronic EYE down into the sewer pipes to see where the problems were, they spent a good deal of time around 4 hours. Then left.

Today Monday February 10th the Television Camera crew came to see where the sewerage spill took place.

Tana Tea Circle seems to have constant water leaks in the road, I reported seven I 2013.

Also many problems with the sewerage blockages, they did put in a New Type of a Special Plastic Pipe Insert Sleeve which gets vulcanized to the inside of the Old Sewage Pipes.

Everybody knows that the Water Pipes are past their life expectancy, now over 40 years old, also the Sewerage System is obsolete and was not designed to take the amount of work involved.

IMPORTANT UPDATE

Tega Cay Water Citizen Advisory Council

Dear Stewart & Margaret,

Dear Residents,

We need to have everyone send letters demanding action!

We have been patient and waited long enough to have agencies in South Carolina uphold the **Federal Clean Water Act** as well as the **Pollution Control Laws** of South Carolina. **Utilities, Inc./Tega Cay Water Service**

(UI/TCWS) has continuously broken them with no

repercussion. It is past time for the politicians and agencies to take action against UI/TCWS. We don't want this company to build or do anything because we already pay extremely high rates and we know they will ask for **another rate increase despite the fact that the latest improvements have not stopped the sewage spills.**

The city of Tega Cay has initiated action but the **agencies have not done** what they need to do.

Send letters today **demanding action.** State any reasons such as sewage spills, boil water advisories, billing problems, misread meters, lack of proper maintenance, lack of proper service, etc.

Send your letters to any and all of these people daily!!!!

OUR Fight!

WE NEED YOU !

As always...

KEEP YOUR EYES OPEN!!

It is more important than ever that we report **EVERYTHING!**
(If you don't know where to report -- just contact us, and we'll be happy to help you out. Email us (TCWCAC) here

Thanks in advance for helping us make a difference!

*Your friends at Tega Cay Water Citizen Advisory
Council*

PS. How can you help make sure we win this battle?

1. Help us make sure everyone knows about this -- Forward this email (using the 'forward to a friend' link below.) You may be suprised to hear that we only have a little more than 600 here! Don't assume everyone knows about how bad the situation is -- we hear from people each month that they just found out about our group and updates, **so help your friends and neighbors out by giving them a chance to tune in.**
2. Like us on FB and share with your friends in the area www.facebook.com/FlushUI
3. Volunteer to help us! tcwateradvisory@hotmail.com (we can use help in lots of areas: online research, web updates, fb posting, etc)
4. Make a contribution to the TCWCAC to cover costs of website, email program which protects your privacy, and other costs involved in putting an end to UI in TC!

PSS. Remember - -- this is on election year! Let's use that to our advantage by making sure our elected officials know we expect them to take action on our behalf!
